## NOTICE OF RULEMAKING HEARING

Department of Commerce and Insurance  
Tennessee State Board of Architectural and Engineering Examiners

There will be a hearing before the Tennessee State Board of Architectural and Engineering Examiners to consider the promulgation of rules and amendments to rules pursuant to T.C.A. § 62-2-203(c). The hearing will be conducted in the manner prescribed by the Uniform Administrative Procedures Act, T.C.A. § 4-5-204, and will take place in Room 160 of the Davy Crockett Tower, located at 500 James Robertson Parkway in Nashville, Tennessee at 9:00 a.m. (Central Time) on Thursday, January 25, 2007.

Any individuals with disabilities who wish to participate in these proceedings (to review these filings) should contact the Department of Commerce and Insurance to discuss any auxiliary aids or services needed to facilitate such participation. Such initial contact may be made no less than ten (10) days prior to the scheduled meeting date (the date the party intends to review such filings) to allow time for the Department to determine how it may reasonably provide such aid or service. Initial contact may be made with Don Coleman, the Department's ADA Coordinator, at 500 James Robertson Parkway, 5th Floor, Nashville, Tennessee 37243 at (615) 741-0481.

For a copy of this Notice of Rulemaking Hearing, contact the State Board of Architectural and Engineering Examiners, attention John Cothron, Tennessee State Board of Architectural and Engineering Examiners, 500 James Robertson Parkway, 3rd Floor, Nashville, Tennessee 37243 at (615) 741-3221. The notice is also available at the Board's website ([www.state.tn.us/commerce/boards/ae](http://www.state.tn.us/commerce/boards/ae)).

The Board requests your feedback on the proposed amendments and additions to the rules. You may e-mail ([john.cothron@state.tn.us](mailto:john.cothron@state.tn.us)) or write to John Cothron, Executive Director, at the Board office prior to January 25, 2007. Mr. Cothron will distribute copies of your comments to each Board member prior to the rulemaking hearing. You are also invited to attend the public hearing on January 25, 2007.

The following is a summary of the proposed rule changes:

1. In addition to the application fee and the cost of the current examination(s) and scoring, engineer applicants will also be required to pay the cost of the administration of the examination(s) [Rules 0120-1-.05(1) and 0120-1-.20(2)].
2. Architect applicants will be required to submit a minimum of five (5) references, as is currently required for engineer, landscape architect and interior design applicants [Rule 0120-1-.09(1)].

# WHAT IS HEALTH, SAFETY AND WELFARE?

By Dennis Henderson, Associate Engineer Board Member

It is the mission of the Tennessee State Board of Architectural and Engineering Examiners to protect the public health, safety and welfare through the regulation of architecture, engineering, landscape architecture, and interior design by means of evaluation, education, examination, licensure, and disciplinary action, and to communicate with its registrants and the public regarding the laws and standards of the professions.

Chapter 0120-5 of the Board's rules, entitled Continuing Education, requires that a majority of the Professional Development Hours (PDH's) claimed (7 of 12, or 13 of 24) shall address health, safety and welfare issues and technical competency.

Webster's dictionary of the English language identifies the following definitions:

**Health**—the state of fitness of the body or of the mind.

**Safety**—the quality or state of not presenting or involving risk or danger.

**Welfare**—organized work to promote this state in the members of a community who need to be helped.

It is the opinion of the Engineering Committee of the State Board of Architectural and Engineering Examiners that "health" continuing education should be defined as those subjects or topics which will add value to one's ability to positively impact the fitness of the public. "Safety" continuing education should be defined as those subjects or topics which will add value to one's ability to limit or prevent accidental injury or death to the public.

"Welfare" continuing education deserves an even broader scope as the subjects and topics which will add value to one's ability to contribute positive emotional responses to the public. One's ability to organize work and communicate effectively will enhance the overall welfare of the public.

Some examples of such public protection subjects/topics include, but are not limited to:

- Codes, statutes and administrative regulations governing the practice.
- Environmental issues.
- Professional ethics.
- State licensing law.
- Design proficiency.
- Interface with other design disciplines (e.g., planners, consultants, specialists and financiers), other than through normal day-to-day contact.
- Legal aspects of contracts, documents,

insurance, bonds, etc.

- Specialization in preservation, adaptive reuse or building types.
- Construction documents and services.
- Materials and methods.
- Life safety codes.
- Structural technology.
- Energy efficiency.
- Project administration.
- Accessibility issues.
- New technical/professional skills.
- Natural hazards.
- Security.
- Minimize risk of injury to persons or property.
- Enhance the public's overall sense of well-being, harmony, and community and integrate effectively with the surrounding environment.

As each of us obtains the PDH's necessary to meet the renewal requirements, we must ask ourselves,

- Did this PDH improve the fitness of my mind to protect the public?
- Did it educate me to improve the quality or state of not presenting or involving risk or danger to the public?
- Did this PDH educate me to improve my ability to organize my work to enhance the public's overall source of well-being?

When we evaluate each PDH as stated above, I believe you will agree that almost everything we do in our professions contributes in some manner to the protection of the public's health, safety, and welfare. ■

## Rulemaking Hearing...cont.

3. The rules providing for evaluation of non-accredited architecture and engineering programs are amended to read that non-accredited programs "shall be referred at the applicant's expense to a person or an entity approved by the Board" for evaluation [Rules 0120-1-.10 and 0120-1-.11].
4. Rule 0120-1-.13(1), providing for anonymity of examination papers, is deleted in its entirety because the Board no longer handles

examination papers.

5. Rules 0120-1-.14, 0120-1-.20, and 0120-1-.21 are amended to reflect the fact that the engineer and engineer intern examinations are now graded as "pass" or "fail."
6. Rule 0120-1-.14(1) is amended to read that "the use of materials, reference books, notes, calculators and equipment" in engineering examinations shall be in accordance with instructions by the National Council of Examiners for Engineering and Surveying (NCEES).

7. The rules regarding renewal of registration are amended to include the continuing education requirement [Rules 0120-1-.25(2) and 0120-4-.08(2)].
8. Failure to pay child support and the professional privilege tax are added to rule 0120-2-.07 (Misconduct).
9. T.C.A. § 62-2-308(a)(1) is added to the civil penalty schedule in Rule 0120-2-.09(1).

The complete text of the proposed rules is available on the Board's website. ■

## REVISED LIST OF ACCEPTABLE CONTINUING EDUCATION PROVIDERS

At its November 16, 2006, meeting, the Board revised its list of acceptable continuing education providers. This list was originally developed in an effort to provide more guidance to registrants in selecting continuing education activities. The revised list states that continuing education courses offered by the following providers are generally accepted by the Board:

- Local, state, and national professional and technical societies (such as AIA, NSPE, ASCE, etc.)
- National regulatory councils (NCARB, NCEES, CLARB, and NCIDQ)
- Government agencies
- Colleges and universities

In addition, courses or providers approved by the AIA, the Registered Continuing Education Providers Program of the NCEES, CLARB, or the Interior Design Continuing Education Council (IDCEC) are generally acceptable.

Please note that the Board does not pre-approve continuing education courses or providers. Although courses offered by the above providers are generally acceptable, it is still the registrant's responsibility to determine if specific courses meet the criteria of the rules. Registrants are not required to choose activities offered by the above providers and are free to earn hours through other providers, provided that those activities meet Tennessee's requirements. All courses claimed for continuing education credit must be relevant to the practice of architecture, engineering, landscape architecture, or interior design. ■

## NCEES VOTES TO INCREASE EDUCATION REQUIREMENTS IN MODEL LAW

At the 2006 Annual Meeting of the National Council of Examiners for Engineering and Surveying (NCEES), delegates voted to modify the NCEES Model Law requirements for licensure to require additional education for engineering licensure.

The approved language states that an engineer intern with a bachelor's degree must have an additional 30 credits of acceptable upper-level undergraduate or graduate-level coursework from approved providers in order to be admitted to the Principles and Practice of Engineering (PE) examination. The decrease in the number of credits required to earn an undergraduate degree—from 150 a few decades ago to an average of 128—was cited as one of the reasons for supporting this change to the Model Law. The effective date of this provision is January 1, 2015.

The purpose of the Model Law is to serve as a reference in the preparation of amendments to existing legislation or in the preparation of new proposed laws. This change will not affect applicants of the Tennessee Board of Architectural and Engineering Examiners unless the Board's statute is amended to conform to the Model Law requirements. At this time, the Board is studying the matter, and there are no immediate plans to increase educational requirements for engineer applicants. Registrants are welcome to submit comments for the Board's consideration. ■

## DID YOU KNOW?

The Board has updated the *Reference Manual for Building Officials and Design Professionals*. The 2006 revision is in the process of being printed and mailed, as is currently available at the Board's website.

The National Council of Architectural Registration Boards (NCARB) has released a new continuing education monograph, entitled *Daylighting Performance and Design*. This monograph explores the challenges of balancing the human preference for natural light with energy efficient and sustainable design. Registrants who successfully complete the accompanying quiz will earn 12 professional development hours. Visit NCARB's website ([www.ncarb.org](http://www.ncarb.org)) for more information.

# Disciplinary Action Taken by the Board

## INFORMAL CONFERENCES:

*The Board held an informal conference on September 21, 2006, regarding the following issues:*

**ALLEGATION:** A registered architect failed to respond to requests from the State Fire Marshal's Office regarding sprinkler system and life safety plan issues regarding a church building. Construction also began before the plans were approved. The architect explained that he had difficulties getting the plans approved and that he told the contractor to proceed with construction after being told that approval was forthcoming. Construction was voluntarily shut down after learning that the plans were not yet approved. The architect admitted that he should not have told the contractor to begin construction.

**DECISION:** Closed with no further action.

## FORMAL ACTIONS:

*Jimmy N. Anderson, R.A. #13635  
Jackson, Tennessee*

**VIOLATION:** Failure to comply with all four (4) requirements of responsible charge (nonregistrant had all client contact). Rules 0120-2-.07(3) and 0120-2-.08(5) and (6)(a).

## ENGINEERING

Beginning in October 2003, the National Council of Examiners for Engineering and Surveying (NCEES) assumed responsibility for administering and proctoring the engineering examinations in Tennessee.

### • Fundamentals of Engineering Examination—

#### Application Deadlines:

	Seniors*	Non-seniors**
Spring Exam	February 1	January 1
Fall Exam	September 1	August 1

\*Engineering students with senior status in the engineering curriculum.

\*\*Those who have already been awarded an undergraduate degree in engineering.

The FE exam is currently administered in Chattanooga, Cookeville, Franklin, Knoxville, Martin, and Memphis on:

April 21, 2007  
October 27, 2007

### • Principles and Practice of Engineering Examinations—

The application deadline for new applicants for the spring Principles and Practice of Engineering (P&P) exam is December 1. The fall deadline is June

15. Exam applicants must have the required years of experience prior to filing the application. New exam applicants must submit all required supporting documentation by January 1 for the spring exam and by July 15 for the fall exam to ensure that their applications are processed prior to the exam-scheduling deadline. The exam will be given in Franklin, Knoxville, and Memphis on:

April 20, 2007  
October 26, 2007

To facilitate scheduling of the P&P exams, retake requests and fees should be received by the Board office by February 1 for the spring exam and September 1 for the fall exam. Registrants wishing to take other exam disciplines must submit an application to add an exam discipline (available at the Board's website) with the appropriate exam fee by January 1 for the spring exam and August 1 for the fall exam. The examination fee is currently \$135, the retake fee is \$210, and the Structural II exam fee is \$480. Those wishing to take the Structural II exam must already be registered either by taking the Civil or Structural I exams as the basis for registration.

### Exam Results (10/06)

PE	212	107

For information regarding exam study materials, calculators permitted in the examination room, and exam specifications please visit the NCEES website ([www.ncees.org](http://www.ncees.org)).

## LANDSCAPE ARCHITECTURE

The multiple-choice sections of the Landscape Architect Registration Examination (LARE)—Sections A, B and D—are now computerized and are administered separately from the graphic portions of the examination by the Council of Landscape Architectural Registration Boards (CLARB). In order

to take the multiple-choice sections of the examination, exam candidates must register directly with CLARB at [www.clarb.org](http://www.clarb.org). Tennessee candidates are required to indicate that they have been approved to sit for the examination by the Tennessee Board when registering for the examination. Candidates may take the examination at any of the approved CLARB testing centers, and examination fees (scoring and administration fees) are paid at the testing center. Additional information regarding the computerized sections, including current fees and exam dates, is available at CLARB's website.

The graphic portions of the examination—Sections C and E—will continue to be administered in Nashville, Tennessee by the Tennessee Board with examination fees paid directly to the Board. The dates for the administration of the graphic sections of the LARE are as follows:

June 11-12, 2007  
December 3-4, 2007

The application deadline for new applicants is January 15 of each year.

The exam fees for the graphic portions are as follows:

	June 2007	Dec. 2007
Section C	\$250	\$260
Section E	\$250	\$260

### Exam Results (6/06)

## Examinations...cont.

Design Qualification (NCIDQ) at 202-721-0220, or visit [www.ncidq.org](http://www.ncidq.org). The regular application deadline for the spring exam is December 10 for first-time applicants; the regular deadline for the fall exam is June 10.

The NCIDQ exam is growing, with a 20% increase in candidates from 2004 to 2005, and continued growth in 2006. Nearly 600 individuals earned the NCIDQ certificate in April. They join the 21,000+ certificate holders who already hold the credential.

The national pass rate for the April 2006 exam was 71% on each multiple-choice section, and 82% on the practicum (drawing) section. ■
